

PRASHANTH SHETTEPPANAVAR

Bengaluru, Karnataka | +91 7676315662 | prashantshetteppanavar2004@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on internship experience developing web applications using Core Java, JDBC, Servlets, Spring, Hibernate/JPA, MySQL, HTML, CSS, and JavaScript. Experienced in building end-to-end application workflows, REST APIs, database integrations, and MVC/DAO-based solutions. Practical experience using AI-assisted development tools and LLMs to accelerate coding, debugging, feature development, and technical problem-solving. Focused on building clean, user-oriented applications that connect reliable backend systems with functional web experiences..

TECHNICAL SKILLS

Languages: Java, JavaScript, Python (basics), HTML5, CSS3, SQL

Frameworks & Libraries: Spring Core, Spring MVC, Hibernate, JPA, Servlets, JDBC, RESTful APIs

Databases: MySQL, Oracle SQL, Supabase

Tools & Platforms: Git, GitHub, Maven, Postman, VS Code, Eclipse, Vercel, Render, AI-assisted development tools (Claude, local LLMs, Codex)

Concepts: OOP, Data Structures & Algorithms, DAO Pattern, MVC Architecture, Collections Framework, Operating Systems

Core Competencies: Full Stack Development, REST API Development, Software Development Life Cycle (SDLC), AI-Assisted Engineering, Problem Solving

PROFESSIONAL EXPERIENCE

Founder Team – AI Engineer Intern — mittoX (Vindox Services Private Limited) *Aug 2026 | Bengaluru, Karnataka*

- Worked as part of the Founder Team on an AI-powered Call Operations Platform, contributing to an Android dialer application with call recording, speech-to-text transcription, and AI-generated CRM notes.
- Built backend workflows for agent management, call tracking, follow-ups, and real-time synchronization between the application and CRM Systems.
- Developed automation and AI-driven features that streamlined lead management, customer follow-ups, and day-to-day communication workflows.

Java Full Stack Developer Intern — Dhee Coding Lab (BTM Branch) *Feb 2026 – May 2026 | Bengaluru, Karnataka*

- Built full-stack Java web application modules using Core Java, JDBC, and MySQL, applying DAO and MVC design patterns for scalable, maintainable code.
- Developed backend components with Servlets; gained hands-on exposure to Spring Core, Spring MVC, and Hibernate/JPA for data persistence and ORM.
- Managed builds and dependencies with Maven; applied OOP principles and the Java Collections Framework; collaborated in debugging and code review cycles to reduce defects before deployment.

PROJECTS

MediSlot – Smart Healthcare Booking System *Java Full Stack*

- Built an appointment booking system for doctor consultations and patient scheduling, with a responsive HTML/CSS/JS frontend and JDBC-backed MySQL persistence.

Decentralized File Storage Platform *HTML, CSS, JavaScript, Bootstrap, IPFS*

- Built a blockchain-backed file storage platform using IPFS for distributed, tamper-resistant peer-to-peer file storage, retrieval, and tracking.

AI PROJECTS

Local AI Chat Application *Ollama (Local LLM) | [GitHub](#)*

- Built a privacy-first chat UI that streams responses in real time from an LLM running locally via Ollama's REST API, with no cloud dependency or API cost.
- Implemented token-by-token streaming with the Fetch API and ReadableStream, parsing NDJSON; resolved CORS and local port-conflict issues to connect frontend and runtime.

EDUCATION

East Point College of Engineering and Technology — B.E. Information Science & Engineering *Dec 2022 – Jul 2026*

Bengaluru, Karnataka | CGPA: 8.2

Sri Sangameshwar PU College — Pre-University *Jul 2020 – Apr 2022*

Bagalkote, Karnataka | Percentage: 90.60

J S S High School — SSLC *Jun 2019 – Jul 2020*

Mysore, Karnataka | Percentage: 83.68

CERTIFICATIONS & ACHIEVEMENTS

- Odoo x NMIT Hackathon 2025 – Certificate of Participation: built a cloud-based accounting system in a 24-hour hackathon.
- LeetCode 50 Days Badge – consistent daily DSA problem-solving streak.
- HackerRank Java (3-Star) – verified proficiency in Java programming fundamentals.
